

Thursday September 17th – morning

09.00 – 09.15 **Reception**

09.15 – 09.30	PLENARY Conference Opening - A Espinosa, J Walker, A Leonard
09.30 - 10:00	Launching 100 Years Festschrift: A Espinosa, M Schwaninger, J.P. Rios
10:00 - 10:30	Stafford Beer - a truly holistic character (A Leonard, V Beer, F Sagasti)

10.30 - 11:00 **Coffee**

	Room A Toward Resilient, and Ethical Viable Systems (1)	Room B Emerging Methods and Tools (1)	Room C Stafford Beer in Latin America	Room D Cybernetics for All (Barefoot Cybernetics) (1)
11.00 - 11:45	Angela Espinosa Managing Organisational and Societal Complexity for a Fairer and More Sustainable New World	Markus Schwaninger CyberSystemic Tools for Organizational Advancement.	Jose C Mariategui Governance and the Politics of Possibility. Leonardo Lavanderos & Diego Cerda-Seguel (t.b.c.) Measuring Organizational Viability Beyond Structure: The CO4 and Biovariety Framework	Clive Holtham Learning an outlook – Beer’s neglected contribution to reshaping higher education in an AI- infused world
11:45 - 12:15	David J. Teece & Steve Outtrim Beer-Viable but Teece- Dead: The Viable System Model as the Wiring Diagram of Dynamic Capabilities	Martin Pfiffner From Theory to Practice – and Back	Víctor Ganón From Organisation to State: Adapting, Reinterpreting and Challenging Stafford Beer’s Cybernetic Ideas in Public Administration and Democratic Governance — The Case of URUCIB in Uruguay	Stephen Harwood Cybernetics For All (#Cybernetics4All)
12:15 - 13:00	Angus Jenkinson Ecocybernetics and the Living Foundations of Beer's Viable System Model	Vijaya Manchem Translating VSM into Practice: A Capability-Led Approach using Microsoft 365	Juliana Mariano-Alves Transparency as a Trigger for Change: Repercussions of the Viable System Model (VSM) Application on Water Governance in the Tocantins-Araguaia Hydrographic Region	Marc-André Pigeon Beer’s Pedagogy: Lessons from the Concordia University Lectures

13.00 - 14.00 **Lunch**

Thursday September 17th – afternoon

Room A

Toward Resilient, and
Ethical Viable Systems
(1)

Room B

Emerging Methods and
Tools (1)

Room C

Stafford Beer in Latin
America

Room D

Cybernetics for All
(Barefoot Cybernetics)
(1)

13.00 - 14.00

Lunch

14.00 - 14:45

Constantin Malik
Designing Freedom.
Still. And again

Stephen McGibbon
Embracing the Black
Box: Why Unexplainable
AI (x⁷AI") is a Vital
Feature of the Viable
System's Algedonic
Channel

John Byrne
Useful Art as a Toolkit
for Cybernetic Change:
A Viable Systems Model
for a Better World Today

**José dos Santos
Cabral Filho & Ana
Paula Baltazar dos
Santos**
Architecture for
Freedom: Syntegrity as
an Educational Practice

14:45-15:30

Wolfgang Lassi
From Values to
Organizational Practice -
the Contribution of the
VSM to value-oriented
leadership in the age of
digitalization

Ricardo Vega Mora
(t.b.c.)
Cybersyn Boxes.
Prototyping a Document
Visualisation Assisted by
AI

Miguel Garcia Matas
Design of a Cybernetic
Governance Framework
for Platform Tokenomics

Tom Chan
Midlife Chrysalis: from
'good Chinese boy' and
economics to Stafford
Beer-aholics

15.30 - 16.00

Coffee

16.00 - 16:30

**Katharine N. Farrell,
Jon Walker, Ed van
der Winden &
(posthumously) Brian
Lederer**
Don't shoot the cat
(workshop)

Ayham Fattoum
When Viable Systems
Fail: Explaining the Gap
Between Diagnosis and
Practice (workshop)

Bruno Vaz
Viable Space
Governance in Latin
America: A Processual
Reading through Beer's
VSM

**Thomas A.J.
Biedermann**
Gameful Experiences for
Hopeful Futures:
CyberNations
(workshop)

16:30-17:00

**Zeltzin Pérez-
Matamoros, Ricardo
Tejeida-Padilla &
Isaías Badillo-Piña**
Governance in the
Magdalena River
Community from the
Postulates of the Viable
System Model
(workshop)

17.00 - 17.45

Louis Klein (IFSR)
(keynote)
Diagnosing the System
for Systems Research:
Recognising and
Realising a Field in Itself
and for Itself

Michael Ben Eli
(keynote)
Systems Thinking and
Cybernetics -- the
Missing Link in the
Sustainability Discourse

**H. Palmarola, E.
Medina and P.L.
Alonso**
Video about the
Cybersyn Exhibition
(edited by S Paredes).
Comments by R Espejo)

Jeremy Pryce
Beyond Viability:
Ontological Foundations
for Ethical and
Regenerative Systems
(t.b.c.)

Friday September 18th

Room A
The World in Torment

Room B
Emerging Methods &
Tools (2) AI, LLMs &
Agentic Systems

Room B
Barefoot Cybernetics (2)

Room D
Innovations in VSM
Theory

09.00 – 09.45

Francesco Caputo
Building upon the
Project Cybersyn:
CyberSystemic
Management for
blending Structural
Cybernetics and
Relational Consonance
(keynote)

José Pérez Ríos
A Cybernetic
Architecture for AI
Governance: Integrating
Identity, VSM, and
Organizational
Pathologies

Jon Walker
Towards new economic
and social structures for
a collaborative, post-
capitalistic society

Tadeja Jere Jakulin
The Škofja Loka Passion
Play as a Nexus of
System, Culture, Art and
Religion

09.45 – 10.30

German Bula Escobar
Beer's Thought in the
Colombian Comptroller
General Project: Beyond
Detecting Corruption—
Designing Viable Public
Institutions through
Organizational
Cybernetics (keynote)

**Pedram Farschtschian
& Louis Harel**
Bridging PIMS Data and
Cybernetics: An
Externally Anchored
Operations Room

Theodor Sarafidis
Artificial intelligence as a
liberty machine. A
metamodelization of
barefoot cybernetics

Richard Gunther
From Evidence to
Inquiry: Keeping LLM
Inference Provisional in
Recursive VSM Diagnosis

10.30 – 11.00

Coffee

11.00 – 11.45

Raul Espejo
Insufficient Variety and
Artificial Intelligence

Alejandro Fernandez
OpenSoma: A Decolonial
Cybernetic Agent A
Working System in the
Line of Descent from
Project Cybersyn

**Lien Peeters & Benny
Corvers**
Rethinking
Organisational
Networks: Practical
Insights from Applying
the Viable System Model
in Real World
Ecosystems

Franz Spengler
Algedonics in practice?
Notes from Swedish
collective bargaining

11.45 – 12.30

Igor Perko
CyberSystemic Model
Creation Protocol: AI-
energy-climate-health
governance case

Andreas Slogar
"The Journey of LaCoCa
- A Crew Sets Sail!" -
Gamification Makes the
VSM an Experience - No
Theory Required
(workshop)

**Andrew Pickering
(Keynote)**
Ponds, politics and
the east: Stafford
Beer's cybernetics - a
wider view

Nour Abida
Can Stafford Beer Help
Save Journalism?
Applying the Viable
System Model to
Understand Resilience in
Public Service Media

12:30 – 13:30

Lunch

Friday September 18th – afternoon/evening

Room A
The World in Torment

Room B
Emerging Methods &
Tools (2) AI, LLMs &
Agentic Systems

Room B
Barefoot Cybernetics (2)

Room D
Innovations in VSM
Theory

12:30 – 13:30 **Lunch**

13.30 – 14:00

Plenary - WOSC "The World in Torment: A Time Whose Ideas Must Come" I Perko, F Caputo, A Reyes

14:00 - 14.30

Taja Macek & Tadeja Jere Jakulin
Toward viability:
applying the Viable
System Model to the
cruise shorescape

Steve Outtrim & David J. Teece
The Next 100 Years of
Stafford Beer: A
Working Viable System
Model for the Agentic AI
Era

Mateus van Stralen
From Cybersyn to the
City: Variety
Engineering and the
Design of Open Urban
Infrastructures

Krishan Mathis
The Speed Gap -
Translating the Viable
System Model for a New
Generation of
Practitioners

14.30 - 15:00

Cristina Cervino & Francesco Caputo, Igor Perko
Taming the Digital
Beast: Variety
Engineering and the
Quest for Techno-
Eustress

John Beckford
Viability: A Way of
Being

Thomas McEvoy-Zafiropulos
Diagnosing the System
of the Self: Logical
Closure, Normative
Identity, and Existential
Viability

Ben Wood
Designing Heterarchy:
An Extension of the
Viable System Model for
Complex Construction
Projects.

14.45

15:00 - 15:30

Fabiana Sepe & Simone Luongo, Giovanna Del Gaudio, Mario Tani, Gianpaolo Basile
Toward resilient and
ethical viable tourism
systems: a cybernetic
view on marginal areas
digital transformation in
Italy

15:30 - 16:00

Coffee

16:00 - 16:30

Maria Giovanna Corrado
Organizational
Cybernetics in the Age
of AI: Toward an
Epistemic Conception of
Viability

Krishan Mathis, Margeret Heath, Panos Panagiotis
Cybernetic Futures
(workshop)

Robin Asby & Penny Marrington
Community Governance
(workshop)

Jonathan Huxley
A full software
implementation of
Stafford Beer's Viable
System Model (VSM) as
a complete enterprise
management system
(workshop)

16:30 - 17:00

Maurizio Tomasella
Charting the Boundaries
of Accountability for
Enhanced Airport
Operational Resilience

17:00 - 18:30

Plenary – Digital Museum/Video Documentaries Screening A Espinosa, B Angelov, J Walker, V Beer, A Leonard, G Filewod, B Vaz Toast to SB 100

20.00 - 23.00

Gala Dinner

Saturday September 19th

Room A
Organisational Systems
(VSM, CST, etc.)

Room B
(3) Innovations in VSM
theory

Room C
Toward Resilient, and
Ethical Viable Systems
(2)

Room D
(2d) Innovations in VSM
Practice

09.00 – 09.15 **Reception**

09.15 - 10.00	Mike Jackson Elevating Stafford Beer's Legacy: A Critical Systems Thinking Perspective on the Viable System Model	Jan de Visch The Art of Boundary- Making: Deepening the VSM through Cognitive- Developmental Science	Amar KJR Nayak Ecosystemic Transdisciplinary Action Research: An AIESS-Based Methodology for Regenerative Organisational Cybernetics	Carola Ritzinger-Roll From viability to measurability – Designing governance structures in highly complex and regulated organisational contexts
10.00 - 10.45	Gary Evans, Petter Øglund & Jens Kaasbøll Reclaiming Emancipation in Critical Systems Thinking: Using the Double Viable System Model to Identify the Central Game	Steve Brewis Languaging an Adaptive Organisation into Existence	Chris & Penny Hamlin From Building a Regime to Running It: A Participatory Viable System Model Diagnostic of a Regulator Entering Dual- Mode Operation	Pedro Pablo Cardoso Designing Viable Identity in Institutional Transitions: A VSM Reconstruction of the Total Veteran Framework

10.45 - 11.15 **Coffee**

11.15 - 12.00	Roelien Goede Gary Smith Foundations in Dialogue: Comparing VSM and CSH through Checkland's FMA Framework	Ivo Velitchkov Autonomy and cohesion	Terence Love (t.b.c.) Viable for Whom? Contested Identity in the VSM	Sascha Kullak Gamifying the VSM
12:00-12:45	Marcus Barrick Enactive Viable Agency: A Process-Relational Grammar for Operationalizing the Viable System Model	Camilo Osejo — Temporal Freedom in Viable Systems: A Genealogical Analysis of Human and Machine Time in Organisational Cybernetics (workshop)	Leon Bellin The Social Movement of Tomorrow: Sharing Practical VSM Application	Carlos Andrés Mejía Beltrán Exchange Ecologies and Existential Conductivity: A Cybernetic Framework for Hybrid Human Systems

12:45 - 13.45 **Lunch**

13.45 - 15.45 **World Café: Pathways forward**

15:45 - 16.15 **Closing Remarks & Farewell**
